**REPORT SUMMARY**

**A. Facility Description**

The LRCC is a grade one (1) correctional facility under N.D.C.C. S.S.12-44.1-06; the jail is located at 222 West Walnut Street, Devils Lake, North Dakota. The LRCC is operated under the authority of the Lake Region Law Enforcement Center (LRLEC). The LRLEC is governed by the LRLEC Governing Board, which is comprised of seven (7) commissioners; two (2) from the City of Devils Lake, two (2) from Ramsey County, and one (1) each from Nelson, Benson, and Eddy Counties, that act under a joint powers agreement. The facility was constructed in 1973, with an addition that was added in 2003. LRCC is comprised of a one-story building. The law enforcement center contains the Ramsey County Sheriff's Office, the Devils Lake Police Department, and various other city and county staff offices. The 911-dispatch center/control room is located within the law enforcement center. The control room is centrally located within the facility, with no direct line of sight into the housing units. LRCC physical plant consists of thirteen (13) housing units, 911-dispatch center/control room, supervisor's offices, small vehicle sally port, booking area,

observation cells, kitchen, laundry, interview rooms, dayrooms, attorney visiting rooms, property storage rooms, janitor closets, restrooms, medical treatment areas, chemical storage closet, library, and two (2) inside and one (1) outside recreation areas. Administrative offices for the administrator are located within the building, outside the secured area.

Services available to offenders include religious programming, F5/Peer Support, relationship programming, recreation, medical, commissary, food service, laundry, and library. Meals are prepared and provided by a food service contractor. Offenders eat meals within the pods or in the dayroom. The law library is available on kiosks. LRCC's operational design concept is to receive unclassified individuals and hold pretrial and convicted persons for up to a year. The facility has space to allow for processing, classifying, and releasing individuals at all times.

All offenders are housed based upon their needs and respective level of classification. LRCC housing units/pods include male, female, sentenced, and pre-sentenced, protective custody, and special management. LRCC is comprised of Thirteen (13) units. Each unit is individually contained with smaller pods within. Each housing unit and dorm style-housing unit consists of a one-tier housing unit. The north side of the facility is comprised of one (1) unit, which is a dorm style-housing unit, consisting of seven (7) double bunk beds. Individuals in this dorm have community washbasins, toilets, and shower units located off the dayroom. Three (3) units (F-1, F-3, F-4) contain two (2) pods that have one (1) double bunk bed per room. One (1) unit (F-2) contains four (4) pods that have one (1) double bunk bed. These units have included in the immediate sleeping area a washbasin and toilet. Also included in these units are private showers off the dayroom. The North side of the facility has an additional two (2) units (Pod-1, Pod-2). They contain two (2) single bunk beds, and a dayroom with washbasin and a toilet in each pod, and shower unit that is located off from the dayroom. The south side of the facility contains two (2) dorms. One dorm (West Unit) contains nine (9) double bunk beds, and the (South Unit) contains eighteen (18) single bunks. The south side dorms contain community washbasins, toilets, multi-purpose area, and private shower. These are located off the multi-purpose area. Three (3) units (MS-1, MS-2, MS-3) contain four (4) pods per unit with a double bunk bed including a washbasin and a toilet in the immediate sleeping areas. These units include a dayroom, and a private shower unit, which is located off from the dayroom. The high-security unit contains four (4) pods, which are single-bunk pods and one (1) double bunk bed in the day room. A washbasin and a toilet are located in each pod, and a private shower unit is located off from the dayroom. LRCC has four (4) single-occupancy cells, which are used primarily for safety/observation. One safety/observation cell contains a washbasin, toilet, and bed in the cell. Two (2) cells have a flushing floor toilet mounted within the floor. The last cell H-4 has access to a toilet and washbasin upon request from staff. Area staff are always within hearing distance and accessible by intercom. The controls are located outside on the north wall. If these cells are occupied, the offenders in these single cells have to use a shower room outside of their cell. The observation and safety cells are used temporarily for offenders under the influence of alcohol or drugs, display violent behavior, self-harm, or inability to exercise self-control. These safety/observation cells are located near the booking area. The observation/safety cells visual observation is conducted by correctional officers and supplemented by electronic camera(s) that are continuously monitored in the booking area for the safety of the offender. All safety/observation cells within the booking area have cameras, and intercoms, which can be monitored by the booking officers and control staff. The safety/observation cells do not allow the booking officer personal visual observation of the entire safety cell. The control room officer does not have direct personal visual observation into cells from the control room. Offenders assigned to a pod or a dorm do not have contact with offenders in another pod. Each cell has a washbasin, and a toilet in the immediate sleeping areas. The design of each shower unit allows offenders to have privacy.

LRCC recently installed a new intercom and camera system. Each pod and dayroom or multi-purpose room are equipped with an intercom that allows offenders to communicate with staff. Each unit has basic furnishings, television, phone, and dayroom or multi-purpose areas. Dayrooms and multi-purpose rooms enable offenders to congregate, watch television, use the telephone system, use texters and have access to the kiosk system. Kiosks are used for visitation and orders for commissary. All the units have adequate and appropriate seating for offenders. Most of the fixed furnishings appeared to be original. All the housing units have access to natural lighting, except the west unit and MS-1 unit. Each pod has particular guidelines depending on the inmate classification. The size and infrastructure are different in each of the dorms and pods. Units do not contain the officer station within the pod or dorm. All pods and dorms have a dayroom located in the housing pod or dorm. LRCC has seventeen (17) phones located throughout the facility for inmate use. The jail lobby is monitored twenty-four (24) hours a day from the 911-dispatch center/control room. LRCC has one hundred eight (108) cameras throughout the facility. The booking area will have the capability to monitor activities from all one hundred and eight (108) cameras located throughout the facility. The booking area does not have a direct line of sight into the housing units and a limited range of views in the safety/observation cells. This inspector could not find where electronic surveillance was a substitute for periodic personal observations by facility employees. LRCC has a vehicle sally port, which can provide entry for one (1) vehicle. LRCC utilizes handheld metal detecting wands throughout the facility.

LRCC houses male and female inmates for up to one (1) year. The average length of stay is twenty-three (23) days. One thousand four hundred eighteen (1,418) total inmates, nine hundred fifty-six (956) male offenders and four hundred sixty two (462) female offenders were processed for the year of 2022. LRCC has an authorized staff consisting of; five (5) administrative staff, sixteen (16) security staff, and two (2) medical staff, and maintains staffing levels of three (3) staff to one hundred five (105) inmates. LRCC supports verbal or contractual agreements to house inmates from different jurisdictions, including; U.S. Marshal Service, DOCR Parole and Probation, the Bureau of Indian Affairs, the City of Devils Lake, and Counties of Ramsey, Cass, Foster, Wells, Nelson, Benson, Towner, Eddy, and Cavalier County for females only.

## **B. Sanitation**

The correctional facility inspectors found the level of sanitation and cleanliness of the facility to be in need of attention, primarily due to accumulating trash in the housing areas. The physical plant is being maintained, with no notable physical plant issues. The correctional facility inspectors found that the offenders were provided with equipment necessary to clean their assigned areas, cleaning materials are being replaced with non-hazardous diluted product. The correctional facility inspectors found that waste and trashcans need to be emptied on at least one (1) occurrence every day and more frequently as needed. For vermin or insects, LRCC has retained a professional exterminator. The correctional facility inspectors did not find any disagreeable odors in the facility, and the offenders had access to hot and cold running water. Noise levels and temperatures were within the normal levels throughout the facility.

## **C. Examination of Policies and Records**

Documentation reviewed for this inspection includes facility policies, procedures, forms, educational materials, grievances, training curriculum, employee training records, inmate booking files, inmate property receipt, organizational chart, posters, PREA brochures, PREA audit, inmate handbook, operation manuals, litigation, notice of claims, and significant incidents. These materials were provided to demonstrate compliance with the North Dakota Correctional Facility Standards. The correctional facility inspectors did not examine budgetary records or official findings aside from what was provided. For the

facility inspector observations, we used a limited judgmental sample and relied on our professional judgment to conclude when we observed practices. The correctional facility inspectors had complete access to the facility.
